

MARKETPLACE ECOMMERCE:

I have decided to build a general e-commerce marketplace, with a focus on home furniture, offering a wide range of products such as sofa, cushions, beds, mattresses, dining tables and chairs. The purpose of this marketplace is to make life easier for people who are occupied with jobs or other activities and do not have time to visit physical stores. By providing a convenient, online shopping experience, ~~we~~ I aim to offer customers a hassle free way to browse, compare and purchase furniture from the comfort of their homes.

With a wide selection of quality products and flexible delivery options, our platform ensures a seamless shopping experience for busy individuals.

TARGET AUDIENCE AND AIMS:

As I mentioned above our primary target audience will be busy individuals ~~who can~~ in the urban areas who are occupied in their jobs and other activities and do not have time to visit a physical store.

Our aim is to offer ^{customers} a hassle free way to browse, compare and purchase ~~the~~ furniture from the comfort of their homes. On the other hand if a busy person visit a physical store or market that will consume a lot of ~~of~~ his time visiting multiple stores to compare ~~or~~ otherwise.

PRODUCTS:

We will offer a wide range of home furniture such as Beds, mattresses, sofasets, sofa cumbeds, cushions, dressing tables, cushions and dining tables etc.

Most importantly we will be able to take custom furniture orders soon. For now we will also be taking orders for on demand furniture which means we will make that item in our workshop, with ~~best~~ reliability.

~~SCHEMA:~~ FEATURES:

To enhance our website we will add ~~different~~ various more features:

~~Easy~~ Easy navigation and search ~~possibility~~ functionality for customers to find exactly what they are looking for. Detailed ~~of~~ product descriptions and high quality images, user reviews and ratings help buyers make informed decisions. Flexible delivery options and with convenient scheduling for customers who may have busy lives. We will also be adding authentication in our website
 users
